

KY DEP Environmental Excellence Awards

The Kentucky Department for Environmental Protection's (DEP) mission is to protect and enhance Kentucky's environment. As part of this mission, each year DEP recognizes and encourages environmental excellence in the Commonwealth through DEP's Environmental Excellence Awards. Swift & Staley Team has received the KY EXCEL Champion Award for 2020. This award is given to the KY EXCEL member that demonstrates outstanding stewardship and achieves positive benefits for Kentucky's environment. SST received the award for community outreach projects undertaken in 2019—the ABC Partnership Program Plastic Caps & Lids Recycling Projects, Cigarette Recycling with Paducah, and participation in the Land Between the Lakes Shoreline Cleanup.

A special thanks to our environmental program champions—Mike Golightly and Christa Armstrong—for their leadership of these activities. And thank you to all SST employees who participated in these activities.

Way to go SST!!
